|---|-------|
| Herein Grant Status The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DA WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. Extensions of time may be available under the provisions of 37 OFR 1.138(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. Followed the mailing date of this communication. If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b) Status 1) ★ Responsive to communication(s) filed on 14 July 2005. 2a) ★ This action is FINAL. 2b) ★ This action is non-final. 3) ★ Since this application is in condition for allowance except for formal matters, prosecution as to the merit closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213. Disposition of Claims 4) ★ Claim(s) 1-6 is/are pending in the application. 4a) Of the above claim(s) ★ is/are withdrawn from consideration. 5) ★ Claim(s) 1-6 is/are rejected. 7) ★ Claim(s) 1-6 is/are rejected. 7) ★ Claim(s) 1-6 is/are rejected to estriction and/or election requirement. DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 7-14-2005 have been fully considered but they are not persuasive.

Applicant assert that the cited prior art reference (US 5,351,245) teaches the number of radio frames of a logical to be two in either data rate, as opposed to the number of radio frames of a logical channel is determined according the transmission rate of the physical channel in the case of the present invention. However, the cited prior art reference shows 4 radio frame in the category of RCH "logical channel" at one transmission rate and 2 radio frames at another transmission rate, reading the claimed invention. In other words, since applicant fails to define or distinguish "a logical channel" recited in the claim, a channel represented by the RCH radio frames in the prior art reads on the "logical channel" and the logical channel has a different number of radio frames depending on a transmission rate, as explained below.

- 2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 3. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Pregont et al (US 5,351,245).

Claims 1 and 4.

Pregont et al discloses a communication apparatus and method (see Fig. 1) comprising; means for determining the number of radio frames on a physical channel based on the transmission rate of the physical channel, where the radio frame constitute a unit by which a logical channel is carried out, see Fig. 2 and col. 2, line 56- col. 3, line 59

describing RCH (i.e., a logical channel) is given four frames at the full transmission rate of the physical channel and two frame at the half transmission rate,

means for mapping the logical channel into the physical channel (115) and means for transmitting a signal of the logical channel over the physical channel (109).

Claims 2,3,5 and 6.

Pregont et al discloses generating the signal of the logical channel by adding an error correcting code, specifically CRC, on a unit by unit basis. See Fig.3A illustrating CRC coding.

Conclusion

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Application/Control Number: 10/673,940

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Kevin Y. Kim whose telephone number is 571-272-3039. The

examiner can normally be reached on 8AM -- 5PM M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Kenneth Vanderpuye can be reached on 571-272-3078. The fax phone number for

the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
